Zollid Branding Solutions Pvt. Ltd.

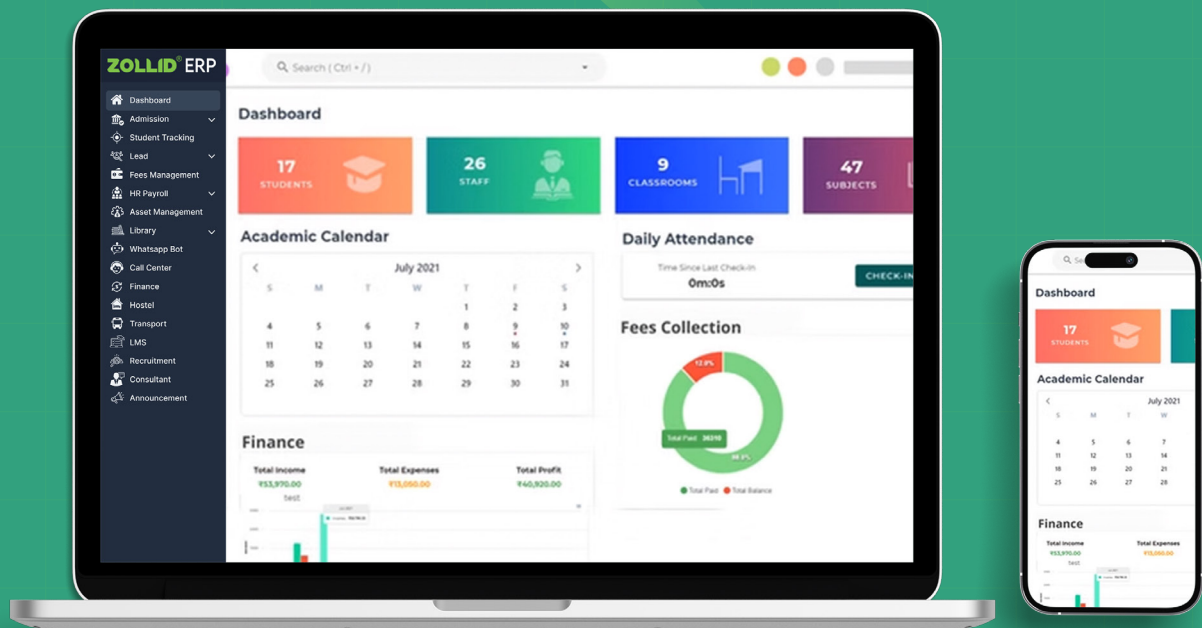

ZOLLID[®]
IMAGINE | INVENT | INNOVATE

Introduction

Our platform helps educational institutions manage daily operations with ease, offering a wide array of features that support smooth workflows, smart decision-making, and a well-connected campus environment.

Built for simplicity and performance, the platform brings together tools for administration, academics, communication, and resource management-creating a complete ecosystem that benefits students, teachers, and staff alike.

Whether you're handling admissions or managing hostel rooms, generating payroll or evaluating exams, everything is streamlined in one place-accurately, efficiently, and intelligently.

Core Institutional Management Features

Student Information System (SIS)

A centralized system to manage, access, and update student data across academic and administrative processes.

Attendance Management

Track and manage student and staff attendance accurately with automated tools and real-time insights.

Staff / Faculty Management

Manage faculty and staff records, roles, and operations through a centralized and structured system.

Time Table Scheduler

Automate and manage class schedules efficiently across courses, batches, and faculty assignments.

Exam & Grade Management

Plan, conduct, and evaluate exams with tools for marks entry, grading, and report generation.

ID Card Generation

Design, generate, and manage institution-branded ID cards for students, staff, and faculty.

Notices & Announcement

Send timely updates, alerts, and notices to students, staff, and parents.

HRMS & Payroll

Automate attendance, leave, and payroll with accurate work hour tracking.

Library Management

Digitize cataloging, lending, and inventory tracking for efficient library operations.

Front Desk Management

Streamline visitor registration, appointment scheduling, and enquiry handling at the front desk for a secure and organized campus experience.

Hostel Management

Manage room allocations, visitor logs, maintenance, and billing with ease.

Leads/ Enquiry

Capture student leads, automate SMS and email follow-ups, and boost admission conversions with ease.

Fees Management

Create flexible fee structures, send payment reminders, and maintain audit-ready records.

Parent Communication Portal (App/Web)

Keep parents informed and engaged through real-time updates, notifications, and access to academic records.

Students Communication Portal (App/Web)

Empower students with easy access to academic information, schedules, and institutional updates through a unified digital platform.

Advanced Operational Features

Fee Collection & Payment Gateway Integration

Simplify fee management with automated billing, online payments, and real-time financial tracking.

Financial Management

Track, confirm and approve payments with automated financial oversight.

Transport Management

Plan routes, map students, assign vehicles, and monitor trips with GPS tracking for added safety.

Inventory & Asset Management

Track assets, manage inventory, and integrate purchase orders with GRNs.

Student Placement Management

Streamline campus placement processes by managing student profiles, company visits, and recruitment workflows.

Mobile App (Android/iOS - Branded)

A custom-branded mobile app for students, parents, and staff to access ERP features on the go.

Call Center Management

Centralized dashboard with toll-free IVR, call records, and inquiry tracking.

WhatsApp ChatBot

Automate student and parent interactions with instant updates, FAQs, reminders, and support via WhatsApp-24/7.

Consultant Management

Role-based logins for super and sub-consultants to manage tasks like lead tracking, document checks, and admission follow-ups.

Documentation Management

A centralized cloud-based system to securely store, organize, and access departmental documents with ease.

Campus Gate Entry

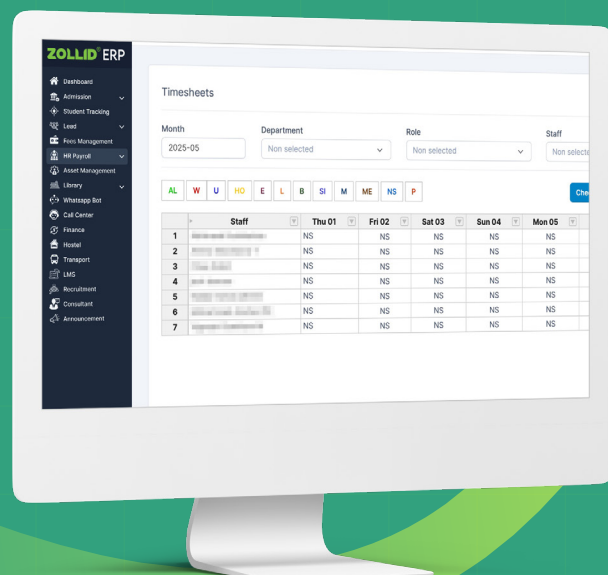

Digitally manage and monitor campus entry and exit for students, staff, and visitors to ensure safety and control.

Recruitment Management

Streamline faculty and staff hiring with tools for job posting, applicant tracking, shortlisting, and interview scheduling.

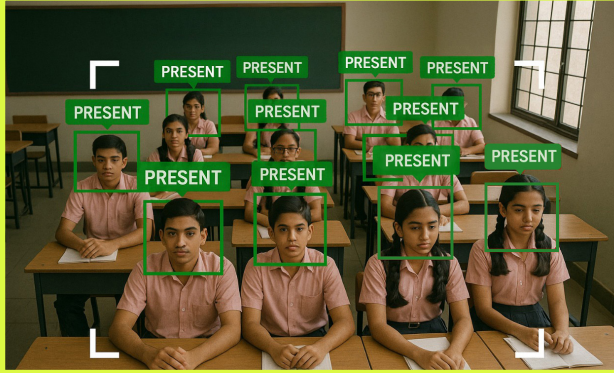

Flip book – Online Brochure

Create interactive, digital brochures to showcase institutional information in an engaging, flip-style format.

Learning & Evaluation Excellence

- Timetable generation using AI to eliminate conflicts and optimize schedules.
- Digital homework tracking, submissions, and parental notifications.
- Content sharing and centralized educational resources for students and teachers.
- Report card generation with branding, automation, and performance insights.
- Subjective and objective digital examinations.
- Stylus-based evaluation directly on devices for accurate, eco-friendly grading.
- Question bank creation and test auto-generation.
- Instant exam publishing across student devices.
- Parallel paper evaluations for faster turnaround.
- Secure cloud-based exam portals with automated workflows.

These tools ensure a fully digital, accessible, and measurable academic environment.

One Platform for All Your Institutional Needs

From academics to administration, operations to engagement—our software is the ultimate toolkit for educational institutions striving for excellence.

Every feature is designed to reduce manual effort, increase transparency, and empower users across all levels—from management to faculty to students.

Streamlined.
Smart.
Scalable.

Start Your Journey Toward
Institutional Greatness
